Yale Platinum 3 Star Profile Cylinder

Yale Platinum 3 Star Profile Cylinder

Combining extreme performance with the powerful and instantly recognisable yellow and black branding, Yale's Platinum profile cylinder is tested and Kite-marked to TS007:2014, with a 3 star accreditation. This means that the external side protects against snapping, bumping, drilling, screwing and picking, all without the need to add additional hardware such as a cylinder protector or upgrade to a security handle.

The snap protection section is designed to break off in the event of an attempt to snap and extract the cylinder, leaving the working components on the inside intact and in place. This leaves the door secure but enables those inside to exit the building.

Each Platinum cylinder is supplied with 3 dimple cut keys with striking Yale branding on the black fob, and a key identification card to make buying additional keys easy but secure.

Platinum is available in key/key or thumb turn variants in nickel and brass finishes.

As well as being TS007 Kite-marked, Platinum is also approved by Secured by Design and is backed up by Yale's 10 year guarantee.

Benefits at a glance:

- TS007:2014 3 star approved
- Kite-marked (KM559658)
- BS EN1303:2005 approved (Classification 16000C52)
- Secured by Design approved
- Anti-bump, anti-pick, anti-screw, anti-pull and anti-drill
- 3 star protection without need of additional hardware
- Strong Yale branding
- Supplied in nickel or brass with 3 attractive keys
- Key identification card makes buying duplicate keys easy yet secure
- Available in single (half), double (key/key) and thumb turn variants
- 10 year Yale guarantee
