New greenteQ Door Knockers

Doctor and Pony Tail Door Knockers

Following the success of the greenteQ Kappa Slim and Classic Urn door knockers, the range is now broadened with the arrival of the Doctor and Pony Tail styles.

Both are hugely popular on traditional period properties, where timber doors were personalised by a huge choice of furniture styles from local ironmongers. Doctor and Pony Tail allow modern door manufacturers to offer their customers increased personalisation through a wider choice of greenteQ knocker styles.

The Doctor knocker is a 2 part product (knocker body and strike plate) that features the flamboyant flowing lines often chosen by the Victorian professional classes to mark themselves out as such. The fact that the design allows for a hefty rap on the door to wake a sleeping physician in the event of an emergency may also be a factor in the name!

Making less of a statement, perhaps, but no less stylish, the Pony Tail knocker (given its name as it resembles a pony's flat tail when viewed from behind) offers a more compact and subtle design that provides homeowners with another attractive alternative to the standard

knocker styles.

Both new knockers feature the quick fit fixing method to speed up and simplify the fitting process, whilst removing the need to fix through the door. They also both feature the familiar groove that marks them out as part of the popular greenteQ Suite.

Doctor and Pony Tail knockers are available in PVD Gold and Polished, Satin and Smokey Chromes.

Benefits at a glance:

- Quick fit fixing method speeds up and simplifies fitting procedure
- Surface fit - no need to pass bolts through the door leaf
- No unsightly head nuts on inside of door
- Part of the greenteQ Suite
- Differentiates doors from those fitted with 'standard' knockers
- greenteQ 10 year guarantee
