greenteQ Monkey Tail Window Furniture

Everyone appreciates the comfort and performance of PVCu and high performance timber windows with their thermal efficiency and security benefits. However, many end users desire a traditional appearance to windows that current contemporary handles cannot provide.

The answer to this problem is the greenteQ Monkey Tail espagnolette handle, which works with standard and security espagnolettes, and shootbolts.

greenteQ Monkey Tail has been designed specifically as an espagnolette handle, rather than modified from an existing casement fastener. Manufacturers and end-users will see a number of benefits as a result. The backplate has been cast to the correct width to allow it to clear the frame rebate on modern outward opening windows rather than being machined then coated. This eliminates any unsightly machining marks and provides the consistency of product necessary for modern window production lines.

The handle's 'Lift to Turn' function prevents handle droop on top hung sashes and guards against external manipulation. Full key locking is provided by the working cylinder.

The 60mm spindle has easy-cut notches to enable it to be cut to fit any profile. The black fixing screws provided are also notched.

To complement the Monkey Tail handle, there is also a non-handed greenteQ Monkey Tail Dummy Casement Stay. This is a purely decorative item that fits to the bottom of the opening sash to replicate a casement stay and peg, thus completing the traditional 'illusion'.

Both the handle and stay are finished in hard wearing Antique Black powder coat and are covered by the 10 year greenteQ guarantee.

Benefits at a glance:

- Gives modern windows a more traditional look
- Key lockable with working cylinder
- Slim cast backplate for frame clearance and improved appearance
- 'Lift to Turn' operation prevents droop
- 60mm spindle with easy-cut notches (screws also notched)
- Designed as an espagnolette handle. Backplate is cast to correct slim width so there are no unsightly machining marks
- Stay is unhandled – reduced stock-holding
- Black fixings included with handle and stay
- 10 year greenteQ performance guarantee
- Q-secure
