## greenteQ Omega Letterbox

greenteQ

greenteQ Omega Letterbox

The Omega all-metal letterbox is a top quality product that suites with all the other items in the greenteQ suite of matching door, window and patio furniture.

It features many of the design traits of the range including the attractive greenteQ groove on the softly curved ends and across the bottom of the flaps themselves.

Omega is available in 8 colours of the greenteQ suite. All finishes will exceed 500 hours salt spray testing.

Both the inner and outer flaps feature indentations on the lower frame to allow easy finger access, and both also open to a full 180° to avoid damage from rings or over-stressing the springs.

Omega is suitable for mid-rails from 40-80mm thick and is supplied complete with cuttable M6 screws for thru-fixing. It can be surface-fixed if preferred as both sides feature 4 screw holes covered with a thin membrane. These can easily be opened up if required, but when thru-fixing they preserve the visual integrity of the letterbox frame.

The letterbox features a strong, yet cushioned, closing action to stop rattling, and has internal brush seals and external Thermo-Plastic Rubber and Polyethylene seals to provide excellent draught and water protection.

Benefits at a glance:

- All metal frame construction
- Suits 40-80mm mid-rails and composite doors
- Finishes suite with greenteQ furniture range
- Features greenteQ groove on flaps and curved ends
- Nylon brush seal to inside and weather seal to external flap
- 180° opening (both sides)
- Supplied with M6 thru-fix screws or can be surface fixed
- Cushioned closing action
- Overall size: 325 x 78mm
- Door Prep: 260 x 55mm
- Internal aperture: 249 x 38mm
