without limits ■

BRUSHED STAINLESS STEEL

PVD GOLD

POLISHED STAINLESS STEEL

**Already proving popular with fabricators, specifiers and installers, our exciting range of corrosion resistant door hardware is reassuringly tough against the harshest conditions.**

“Our customers are installing increasing numbers of contemporary composite, aluminium and timber doors with separate pull handles and cylinder rosettes.

In response to market feedback we've extended the Pull Handle range to include two new oval bar styles in various lengths for contemporary installations.”

Simon Monks  
Managing Director, VBH (GB)

Made from Grade 304 hard wearing austenitic stainless-steel, our Coastline suite provides many benefits:

- An industry-leading 25-year guarantee against corrosion and defects
- Our Q-secure security performance guarantee
- Protection against aggressive coastal or industrial environments in the UK and overseas
- Easily interchangeable with standard greenteQ furniture as a premium upgrade
- Choice of finishes in PVD gold, brushed and polished stainless steel

## Improved Pull Handle Range

We now have 13 great styles of pull handle, available in matt brushed stainless-steel finish, including dimpled and grooved finishes that can be fitted on one side of the door, or back-to-back.

Straight, oval or curved designs are also available, with fixings to suit composite, timber, PVC-U, aluminium, steel and glass doors in residential or commercial applications.

Our new sizes range from 300mm to 1800mm and are ideal for doors fitted with slam shut door locks or night latches.

# 25 YEAR GUARANTEE

Your customers will benefit from total peace of mind, knowing the performance of our Coastline range is backed by our industry-leading 25 YEAR GUARANTEE.

## Q-secure guarantee as standard.

Q-secure is VBH's multi-brand security performance guarantee, providing ultimate peace of mind for homeowners and helping our Approved manufacturers and installers turn prospects into satisfied customers.

In the unlikely event of a customer's home being broken into as a result of hardware failure during the 10-year guarantee, VBH will pay towards replacing the window or door and make additional goodwill payments to the homeowner.

“Having the ability to easily upgrade to stainless steel furniture allows us to tailor our installations to the customers’ needs. It gives us a real advantage over our competitors.”

John Banks | Product Manager, Climatec Windows Ltd

“We use the Coastline lever handles, knockers and letter plates in 3 finishes. Everything matches and is suited perfectly.”

Patrick Meade | Purchasing Manager, Modplan

“We have real confidence in the Coastline range, and the option to upgrade is easy. Being on the South Coast we need hardware that stays looking good whatever the exposure.”

Mark Hutchinson | Managing Director, Tradesmith

**VBH has been supplying the world's window and door manufacturers since 1975.**

We focus on innovation, security and reliability through our greenteQ product range, to help our customers win more business.
