architeQ Coastline Stainless Steel Door Furniture

architeQ Coastline Stainless Steel Door Furniture Suite

The architeQ Coastline door furniture suite builds on the success of our original zinc door handles, letterplates and Victorian urn door knockers, which are all very popular with fabricators, installers and specifiers alike.

architeQ takes greenteQ to the next level as the products are produced from grade 304 stainless steel to provide exceptional resistance to corrosion.

The Coastline suite comprises our long backplate lever/lever door handle, a letterplate and Victorian urn door knockers with or without viewer holes. The suite is completed by our wide range of pull handles and cylinder rosettes.

All Coastline products are interchangeable with our standard Alpha, Omega and Kappa products so upgrading existing doors or running two furniture lines is easy.

All Coastline products are backed by a 25 year surface guarantee.

Benefits at a glance:

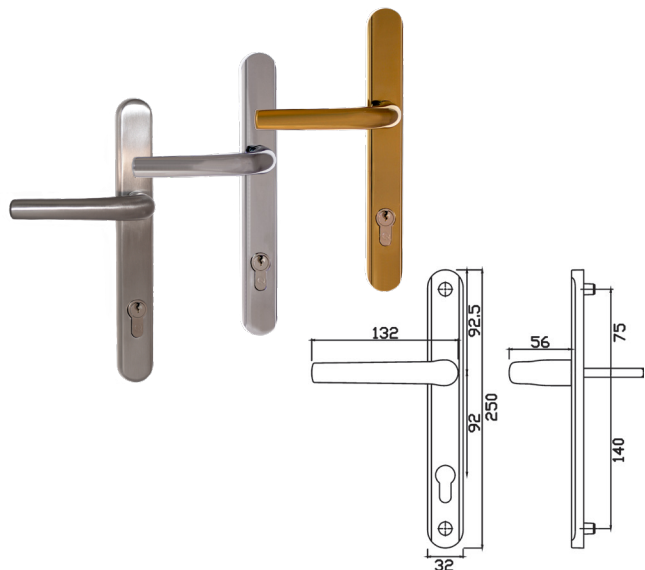

- Grade 304 stainless steel construction for superior corrosion resistance
- Interchangeable with standard greenteQ Suite furniture
- 25 year architeQ surface guarantee
